* 4 leaf barndoor and daylight filters not included

ROMY_100 Set Light

The ROMY 100 light set puts a new, extremely compact location light at your disposal.

As the smallest and lightest location light kit on the market, its three 100 W lights provide the right illumination for small sets. It's a fast and inexpensive solution for lighting interviews, close-ups and pack shots. The 4 leaf barndoor and three provided gel filters are just what you need for small studio productions.

ROMY 100 Set Light | code no. 155808

The entire kit may be stored in a padded bag for convenience and easy access. Fully loaded, it weighs only 21 lb | 9.5 kg.

With 4-pin XLR

With A/B plug
